

Medium Steel Oven

Our medium oven has been designed to allow easy cooking and the maximum use of space in the oven. The oven consists of a firebox and oven compartment, both of which may be used to cook in. So if you like that smokey flavour in your pizzas or meat then cook in the firebox with the coals, but if you want a clean slow cooked flavour, say for scones or bread then you can use the oven compartment. You may also like to place some hot coals in the oven compartment to add a little smokey flavour.

The oven compartment measures 670mm wide by 250mm high by 465mm deep, this allows you to cook up to four large pizzas at a time in the oven or several legs of lamb or chickens as well as all the trimmings.

The firebox compartment measures 770mm wide by 175mm high by 465mm deep, this allows you to cook up to two large pizzas at a time in the firebox or several legs of lamb or chickens. You can also slow cook casseroles and bake bread.

The oven will reach temperatures of over 500 degrees Celsius in the oven compartment and over 650 degrees Celsius in the firebox. A heavy layer of refractory insulation helps to keep the heat in the oven where it should be and not let it escape to the atmosphere. With a small amount of wood you can hold the oven at over 350 degrees for a very long time.

To create added atmosphere and add warmth in winter you can cook with the firebox door open and sit in front of a beautiful open fire.

There is no setup or assembly needed to start using the oven, simply put it in place on a flat non-flammable surface, put the flue and flue hat on (not included in price) and light your fire. Within 40 – 60 minutes your oven will be ready to start cooking in.

Truly a versatile and easy to use product that will see you cooking in no time for that big party.

Loads of cooking space in both the oven and firebox for you to create food to die for.

A pizza will cook in under 5 minutes when oven is at correct temperature

Sit in front of a beautiful open fire on those cool evenings.

Specifications

Model	Width	Height	Depth	Weight	Price
Large	87cm	70cm without flue and hat 165cm with flue and hat	52cm	275kg	\$1995
